

1. Promotional video for All Day Solar (Innovative new solar company)
 - a. I did the motion graphics and compositing for this promotional video.
 - b. The purpose of the video was to explain how their solar could draw power in the shade and on cloudy days because it could generate power from ultra-violet and infrared light, not just direct sunlight. Now solar isn't just in the Arizona desert, its everywhere.
2. Explosion Video
 - a. This was a test that I did for a small explosion from a building in two hours. (Yes, I put myself on a clock)
 - b. I got the picture from google images and put it together as if it was a test for a larger production
3. MuggleNet.com
 - a. I put together a video showcasing some of the work I had done for MuggleNet.com (the world's largest Harry Potter fan-site)
 - b. I created since 2000 MuggleNet.com's main design and 50+ themes
 - c. Created the MuggleNet.com Gallery design
 - d. Designed the MuggleSpace.com (World's largest Harry Potter Social network)
