

Josh Gort

Role Synopsis

***Freedom Museum Project***

Co-Directed, Co-Cinematographer & Editor

This project was a short documentary about the issues of the 2008 election. It was intended to see how people feel about the election. We worked in teams of two and our focus was to ask about the war and to ask about the economy.

***Big NOE***

Director, Cinematographer & Editor

This was a short documentary about the process that a musician goes through. Big N.O.E. and Crazy J are musicians from Chicago trying to do their own thing and make it. I shot interviews as well as shoot the recording process.

***More Than This***

Writer/Director

This was a short film about Mike, 23, who feels unfulfilled with his life and the small steps he tries to make to change his life. This film was a very collaborative process to make the film work on a small budget. It was fun scouting various locations and seeing the project throughout the whole process.

***Farmed***

Writer/Director

This was a short about a man who wakes up in a mysterious room and it is unknown what will happen next. I gained experience on set construction and art design with this film. I also learned how planning can prevent future problems.

***Best Kept Secret***

Director & Editor

This was a performance video of Amanda Sena and the Thieves of Thunder. I learned how to light and key out green screen on this project. On this project we worked with a small crew to get a nice looking video together.
